HONORING MS. JANE MARKHAM

HON. MIKE QUIGLEY

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. QUIGLEY. Madam Speaker, I rise today in honor of Ms. Jane Markham, a dedicated member of my district office staff. Jane's last day as a Congressional Aide and District Representative in our office will be August 1, 2009, and she deserves our wholehearted appreciation for her work.

Jane Markham began her career working for Congress in 1997 as District Director and Field Representative for Congresswoman Darlene Hooley and in 2003 she came to Chicago, Illinois to work for Congressman Rahm Emanuel, serving as a Congressional Aide and District Representative. She was instrumental to my transition into Congress and has served the needs of countless constituents of the 5th District.

While Jane's dedication and integrity will be sorely missed, her infectious personality and jovial attitude will be irreplaceable. Her sense of humor and vivacity are her trademark and our district staff will be at a loss without her unfaltering ability to make a person smile. Jane's family has always been a priority in her life. She and her husband David Cameron are the proud parents of their children, Mira and Julia.

We thank Jane for her time in our office, both as a co-worker tirelessly dedicated to constituent services and as a friend. We wish her all the best in the future knowing wherever that she may be, Jane will be going there with a confidence and liveliness that will be felt by all.

EARMARK DECLARATION

HON. W. TODD AKIN

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. AKIN. Madam Speaker, in accordance with House Republican Conference standards, and Clause 9 of Rule XXI, I submit the following member requests for the record regarding H.R. 3327, Department of Defense Appropriations Act, 2010.

Project: Hyperspectral Imaging for Improved Force Protection (HYPER-IFP)

Account: Department of Defense, Army, RDT&E (CERDEC, NVESD, Special Projects)

Legal Name of Requesting Entity: Clean Earth Technologies, LLC.

Address of Requesting Entity: 13378 Lakefront Drive, Earth City, MO, USA

Description of Request: To provide \$2,000,000 for the Hyper-IFP (Hyper spectral Sensor for Improved Force Protection) Program. The introduction of a Hyper-IFP in FY08 is allowing the detection and recognition of humans (with a near zero false alarm rate) and providing indication of other certain physiological triggers that can indicate that a person is under extreme stress such as contemplating "bad" behavior. To date successful development, test and evaluation has been done in the lab, though these systems have not been fully optimized for theatre operation or for costs. The continued funding of Hyper-IFP will operationalize and integrate the knowledge gain in the lab and apply it in a true-fielded application at an affordable cost. The Hyper-IFP system will also be environmentally hardened to allow field deployment and allow integration with other FP sensors in the last quarter of 2009. Hyper-IFP is focused on the missions of Perimeter Security, Suicide Bomb Detection and Urban Route Recon. Utility will be demonstrated through an evaluation in both the Southwest border and contingency mission in Southwest Asia. This effort will require leveraging the current Force Protection sensor suite designs for the missions sites to maintain interoperability. In the end, this request focuses on both achieving data verification, and the delivery of sufficient hardware to validate the Technical Data package for re-procurement as well as demonstrate the system's ability to deploy to DoD/DHS users for the missions described. The Night Vision Electronic Sensors Directorate, Ft. Belvoir Virginia, is very supportive of this project.

Project: Aircrew Body Armor and Load Carriage Vest System

Account: Other Procurement—U.S. Air Force

Legal Name of Requesting Entity: Eagle Industries

Address of Requesting Entity: 1000 Biltmore Drive, Fenton, MO 63026

Description of Request: To provide \$3,000,000 to issue the Aircrew Body Armor Load Carriage Vest System, an integrated body armor vest system, to aircrew personnel. The system provides fire retardancy and ballistics protection from a wide array of threats including small arms fire, fragmenting shrapnel and spall, while decreasing the heat stress and weight burdens faced by airmen. Currently issued aircrew flight equipment survival vests are not body armor-compatible due to weight, heat, and survivability concerns. Current issue is not fire retardant and fails to meet the present needs of the U.S. Air Force. Of the \$3 million, approximately 25% is for materials; 25% is for labor; and 50% is for armor and armor integration.

This request is consistent with the intended and authorized purpose of the U.S. Air Force-Other Procurement account. If funded in full, this is a one-time funding request with the goal of the Air Force using internally budgeted funding to continue fielding the system to aircrew personnel.

TAXPAYER RESPONSIBILITY, ACCOUNTABILITY, AND CONSISTENCY ACT

HON. JIM McDERMOTT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Thursday, July 30, 2009

Mr. McDERMOTT. Madam Speaker, earlier today I introduced legislation—the Taxpayer Responsibility, Accountability, and Consistency Act. The aim of this legislation is to reverse the growing trend of the misclassification of employees as independent contractors. Independent contractors serve a legitimate purpose in our workforce, our economy, and in many business models. These contractors are important to our economy and often provide the flexibility that many businesses need. Some employers, however, are using a loophole that exists in the Internal Revenue Code to treat workers that are actually employees as contractors in order to reduce their own tax liability and avoid federal and state labor law. When employees are misclassified as contractors, responsible companies lose business,
